

Even street lamps and other masts become a Christmas eye-catcher with an extraordinary depth effect.

The delivery takes place inclusive:

- Mast clamps with galvanized clamp band suitable for all masts from 60-100 mm
- 1 m cable inlet and loose, VDE-tested Schuko plug
- special lamps (7 watt) with brass base, special gluing and seven-fold helix or led lamps
- Sockets with UV-resistant, black silicone gasket
- In LED-MB, all motifs are equipped with LED tube in IP 44, 13 mm Ø with 36 bulbs / m

Your advantages:

- Uniform mounting height and distances provide a very nice look in the depth
- By inserting sockets at the first assembly you need in the subsequent assembly no more expensive professionals
- The mast clamps can remain on the mast all year round, which reduces the consequential costs
